SUMMARY

Results-driven Full-Stack Developer with 4+ years of experience designing, building, and deploying scalable web applications. Strong expertise in **React**, **Next.js**, **TypeScript**, **Node.js**, **Express.js** and **NestJS**, with hands-on experience developing REST APIs, implementing secure authentication using **JWT** and cookies, and working with **PostgreSQL** databases. Proven ability to containerize and deploy applications using **Docker** and **AWS**, collaborate in Agile teams, and deliver high-performance, maintainable solutions that support business growth and reliability.

SKILLS

JavaScript, TypeScript, React, Next.js, Node.js, NestJS, Express.js, PostgreSQL, REST APIs, Docker, AWS, Jest, Git, MongoDB

WORK EXPERIENCE

Full-Stack Developer

May 2026 – Present

WorkspaceBridge – Shared Workspaces for Freelancers & Clients

- Building a freelancer–client collaboration platform using React, NestJS, TypeScript, and PostgreSQL with Prisma ORM
- Implemented real-time messaging and whiteboard synchronization via Socket.io with Excalidraw integration for collaborative drawing sessions
- Designed a responsive multi-role UI with Tailwind CSS featuring per-client workspaces, file versioning with Cloudinary, and a structured proposal workflow
- Built a secure authentication system with JWT refresh rotation, Google OAuth, TOTP 2FA, and email-based client invitation flow using Resend

Full-Stack Developer

Apr 2026 – Present

LinguaAI – AI English Learning App

- Building an **AI-powered** English learning application using **React**, **NestJS**, **TypeScript**, **PostgreSQL**
- Integrated **Groq API** for context-aware sentence generation tailored to selected topics
- Designed responsive UI with **Tailwind** CSS featuring topic-based vocabulary, difficulty selector, and translation toggle.

- Managing full deployment pipeline with server configuration, environment setup, and **CI/CD** via GitHub Actions.

Full-Stack Developer

Jun 2025 – Apr 2026

Full-Stack Auth Application

- Built a production-ready full-stack authentication system using **React**, **NestJS**, **TypeScript**, **PostgreSQL**, and **Prisma**.
- Implemented **JWT** refresh token rotation with HttpOnly cookies, **Google OAuth2**, and **Two-Factor Authentication (TOTP)** compatible with **Google Authenticator**.
- Secured endpoints with **Argon2** password hashing, rate limiting, and **Helmet HTTP headers**.
- Developed admin panel with role-based access control, user management, and pagination.
- Automated deployment pipeline using GitHub Actions and **PM2**, with **Swagger API documentation**.
- Written **unit** and **E2E tests** using **Jest**, Supertest, and **Vitest** with Testing Library.

Full-Stack Developer

Aug 2025 – Dec 2025

Logical Systems Company

- Maintained and improved a production application, diagnosing and resolving critical bugs to restore stable functionality.
- Extended frontend capabilities by implementing new UI components and features using React.
- Developed and integrated new backend functionality using Node.js and Express.js with MariaDB.
- Managed server deployments and maintained production environment stability.

Full-Stack Developer

Mar 2024 – Aug 2025

Personal Projects

- Built a full-stack e-commerce platform at shop.dimitrikokhtashvili.com using React, Node.js, and PostgreSQL, with authentication, OTP recovery, and admin panel.
- Designed and developed personal portfolio website at dimitrikokhtashvili.com with SEO optimizations, deployed on Vercel.

Full-Stack Developer

Dec 2022 – Feb 2024

Bitcamp Bootcamp

- Built multiple full-stack applications using React, Express.js, and PostgreSQL, MongoDB, covering both frontend and backend development.
- Implemented core features including authentication, CRUD operations, and RESTful APIs.
- Collaborated in an agile environment using Git, pull requests, and code reviews.

EDUCATION

Meta Front-End Developer

Sep 2024 - Mar 2025

Coursera

Front-End Development
